58100 Kuala Lumpur.

TESTIMONIAL FOR SYSMAGIC SOFTWARE SOLUTION SDN BHD (SYSMAGIC) – SYSFREIGHT SYSTEMS

We have been using Sysfreight systems since Year 2008 and the system has succeeded in building a more manageable solution that is much easier to maintain. Sysfreight is a user friendly system with good and clear user interface and therefore users are able to learn and used the system easily.

We are glad that Sysmagic support team has been very professional and responsive to our systems needs and ensuring it runs smoothly.

As a result, we highly recommend Sysfreight systems to freight forwarding and logistics companies and looking forward to continuing our relationship for years to come.

Yours faithfully

Joyce Ng
Account and Admin Manager
