To Whom It May Concern

Dear Sir/Madam,

RE : Testimonial For Sysfreight System by Sysmagic Software Solution Sdn Bhd (Sysmagic)

With reference to the above-mentioned subject, we, United Logistics Sdn Bhd would highly recommend to the industry to use Sysfreight systems and solutions.

Our company has been using Sysfreight system for more than 10 years and the level of service and expertise rendered by Sysfreight team especially in the logistics industry is very professional and good. Sysfreight system helps to do away with repetitive task and speed up our services to our customers/agents promptly and efficiently.

Recently we have also upgraded the system to provide more improvements and updated features which enables higher productivity for our office. The system now offers greater visibility in terms of data that enables us to make better analysis and decisions for our company's strategic planning.

With this upgrade, the system is also now cloud based which we have also engaged Sysfreight to manage. With the cloud hosting option, our office is able to access the system at any time and from any location to complete the tasks and this is proven even more important during current working environment caused by the outbreak over the last 1 ½ years.

If you require any further information, please do not hesitate to contact the undersigned.

Thank you!

Yours Sincerely,

UNITED LOGISTICS SDN BHD

(ALEX CHEE YS)
Executive Director
